Tabern of deceivers
What is Tabern of deceivers?
Tabern of deceivers is a web based on the card game called "Cheat". In this game, a rank is called and you have to play them off your deck... Or, you can lie and play other cards, while claiming you played the correct ones! The others players needs to decide if you are lying or telling the truth. They can continue playing cards, or they can try to call your bluff. If you put the right rank they get the cards on the pile, but if you are lying you'll get the cards instead. You win if get rid of your cards. May the best deceiver win!
